
People and Product News

June 29, 2007

Our message for this news note is simple . . . We Have Stock!

Maybe you think of us here at Carol Stream, IL as a regional office, or as a master distributor, or as a manufacturer carrying a little stock.

Not quite right.

As Northman Fluid Power we are the North American Headquarters of a manufacturer of hydraulic valves and pumps.

And we do carry stock. Over a million dollars worth!

In most cases, we ship out orders the same day we receive them.
In fact, over 95% of orders go out the same day.

Thought you would like to know.

Wishing you the best,

Jim Cubberly, Product Manager
