

*An attached "People and Product News" in slightly different format from the usual.*

### **Wishing you the best from Northman Fluid Power!**

Information is vital. When you need it, you need it now. Is it accessible?

We at Northman Fluid Power are mindful of our responsibility to make information about our products available to you. We believe the best way to achieve this is to completely detail out our website so that you have a useful resource.

Of course, there is never a point where the web site is done; rather it is a work-in-progress. We have improved our site over the past year to contain more information in an easily accessed way, and we will continue to do so.

See the attached for a quick guide to some of the content. And please visit and browse when you have a moment. [www.northmanfp.com](http://www.northmanfp.com)

As always, contact us any time with requests, questions, suggestions –

# Northman's Web Site - Informative, Useful

[www.northmanfp.com](http://www.northmanfp.com)

*Catalogs (of course) and other useful information where you need it!*

The image shows a screenshot of the Northman Fluid Power website. The website has a dark blue background with a white navigation menu on the left. The main content area features several product categories with images and descriptions. Callouts in white speech bubbles point to various parts of the website, including the navigation menu, product descriptions, and technical information sections.
